Healthy Life

Aatamaker

An ISO 9001:2015 Company

India's No.1 Domestic Flour Mill

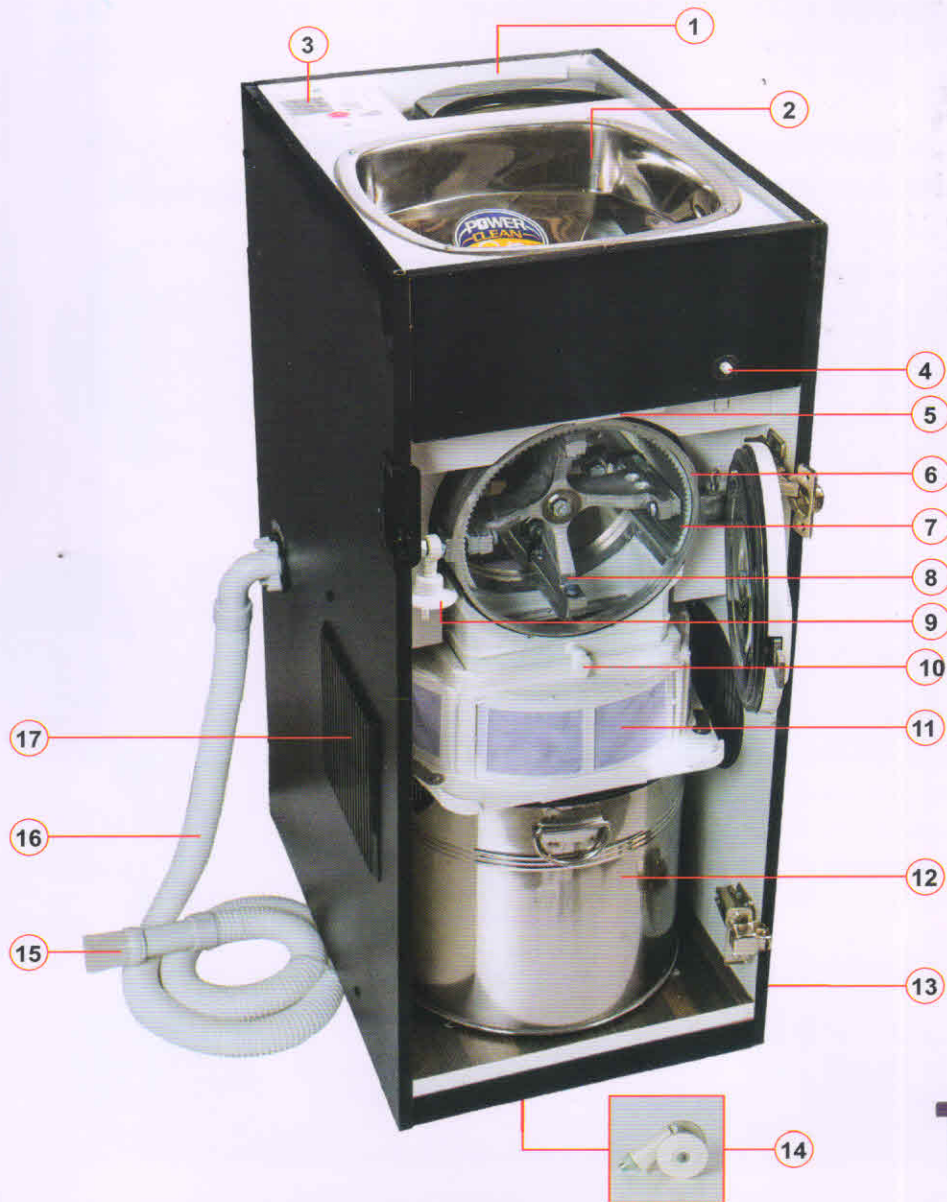

Natraj is a pan Indian leader in flour mills for household and professional use. The company has sold more than 8,50,000 flour mills to customers. It has over 20 years of experience in manufacturing of electronics appliances. The company focuses on innovations that are thoughtfully designed, based on extensive customer insights, to meet the real needs of customers. With this unrelenting quest for design and manufacturing excellence. Natraj brings you a range of domestic flour mills specially designed to meet the demanding customer's conditions and usage patterns. It gives you a new and better possibility for great health.

Healthy Roti *for* Healthy Life

In India, the food staples mainly on flour of different grains in form of many delicacies. So, it becomes very important that the flour of grains should be pure & fresh, consists of Vitamins, Proteins, Fibers etc. Natraj Aatachakki gives you 100% fresh and pure flour in the most effective manner. While it grinds, it retains all Carbohydrates, Proteins, Vitamins and Fibers of the grains and provides you with the most nutrients whole grain flour, that too within minutes.

Prime Features

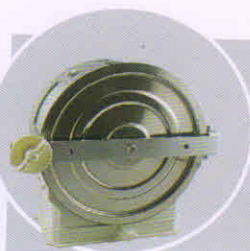

GRINDING SYSTEM

It's a stoneless grinding system that works on pulverize principle. A drive of powerful 1hp - 2880 RPM motor rotates 4 wings Impeller, which hammers grains and converts it in to powder form at low temperature. With the help of desired mesh sieve you can have desired flour at home.

Main Components of Grinding System:

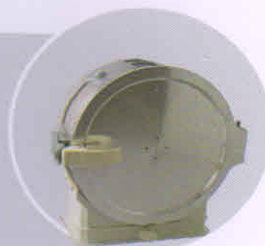

1. Main Chamber 2. Cutter 3. Impeller 4. Chamber Lid 5. Chamber Lock

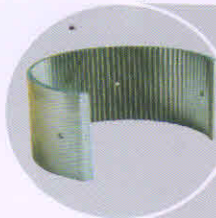

Chamber with
Screw Type Lock

CHAMBER

It's a 100% food grade grinding chamber, having outer chamber made of Pressure die cast LM-6 alloy aluminum which gives it a long life & keeps it cool.

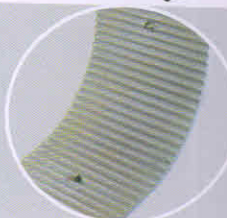

Chamber with
User Friendly Snap Lock

CUTTER

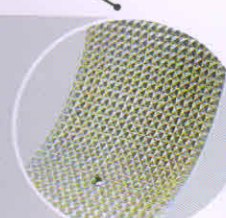

It's greatest strength is its cutter which is made by cold-forging method & hence will not emit iron particles while grinding. These harden cold-forged cutter lasts lifelong.

Crystal Cutter

M.S. Zinc
Linear Cutter

S.S. Linear Cutter

MAIN MOTOR

Designed on German Technology absolutely silent, dynamically balanced, Robust, Powerful Motor is made of silicon stamping, H class copper wire, best quality heavy Ball Bearings & High Quality Capacitors. Only Natraj Flour Mills motors are made of Aluminum Alloy. Natraj's motor works on wide voltage range from low of 175 volts to 250 volts.

Plug & Run

Panel

ELECTRONIC SYSTEM

Micro Processor based Controlling Unit

Natraj is the inventor of auto grinding system having Micro Processor based Auto Controlling unit which gives hassle free function life long. It has Electronic Overload Protection Device.

SIEVE SET (JALI)

To make different types of Rotis | Chapatis, one needs flour of different fineness. Natraj has seven types of sieves, which gives almost perfect fineness to make rotis or to grind dalia & masalas. It's SS | Brass perforated sheets are strong enough to last longer. It's scientifically designed frame, retains it's shape to give consistent fineness.

Prime Features

CLEANING PROCESS

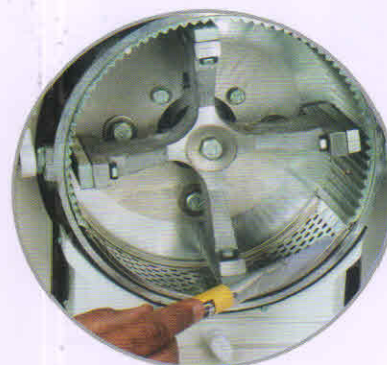

Natraj makes the most tedious process of aatamaker cleaning post grinding very easy. Generally grinding chamber gets cleaned automatically because of it's 2 minutes extra run process post grinding but to clean the chamber throughly and to clean the whole cabinet, Natraj has developed a unique Power Clean System.

Two Types of Cleaning System

1. Manual Clean 2. Power Clean

MANUALCLEAN

Autoclean models of Natraj clean itself by running 2 minutes extra after grinding process, thereafter you have to clean the chamber with the wooden brush with fiber bristles given with aatamaker.

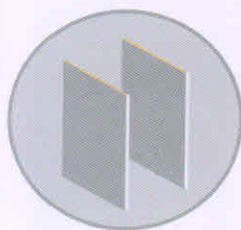

POWERCLEAN

To get the rid of most tedious & complicated work of cleaning the Flourmill, Natraj has developed a unique & powerful vacuu cleaning device which sucks or blow the residue of flourmill which remains after Autocleaning. It's scientifically designed blower system and all powerful motor is strong enough to clean the flourmill completely and makes it hygienic.

This system is electronically controlled & get off after 2 1/2 minutes.

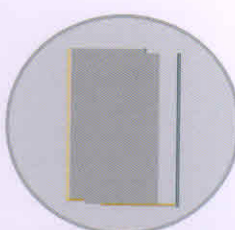

MODULAR CABINET *A unique combination of Beauty & Sturdiness*

Side Panels

Shutter Panels

Edge Banding

Fittings

Two verticle sides of the cabinet are made of green-lam or equivalent pre-lam 12mm thick mdf board - better then all others which are made of particle board.

Three horizontal planes - made of 16mm hardcore plywood, makes the cabinet very strong & sturdy.

Shutter is made of 18mm - MDF with Membrane | High Gloss Acrylic | PVC cover or 18mm PLB with lamination.

All sheets are edge banded by Rehau Top Class PVC edge band on german machines to keep it termite and moisture free.

Whole cabinet is modular type and assembled with - dowels, minifix & hinges. Specially designed nylon clamps fittings gives it extra strength.

Cyclone

- Plug & Run
- Regular Chamber with M.S. Zinc Cutter
- Prelam Shutter

Cyclone Crystal

- Plug & Run
- Snap Lock Chamber with Crystal Cutter
- Prelam Shutter

Jumbo Time

- Single Switch Operation
- Regular Chamber with M.S. Zinc Cutter
- Laminated Shutter
- Door Clock

Amaze

- Plug & Run
- Regular Chamber with M.S. Zinc Cutter
- Membrane Shutter

Amaze S.S.

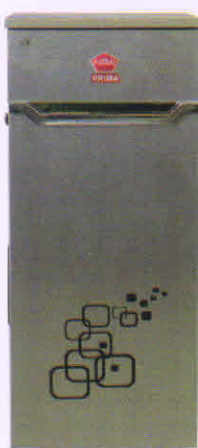

- Plug & Run
- Snap Lock Chamber with S.S. Cutter
- Membrane Shutter

Amaze High Gloss

- Plug & Run
- Regular Chamber with M.S. Zinc Cutter
- Digital Printed Membrane Shutter

also available
- Snap Lock Chamber with S.S. Cutter

Prima

- Single Switch Operation
- Snap Lock Chamber with Crystal Cutter
- Metallic Laminated Shutter

Creta

- Single Switch Operation
- Regular Chamber with M.S. Zinc Cutter
- High Gloss PVC Shutter

Creta Floral

- Single Switch Operation
- Regular Chamber with M.S. Zinc Cutter
- Digital Printed HG PVC

Power Clean

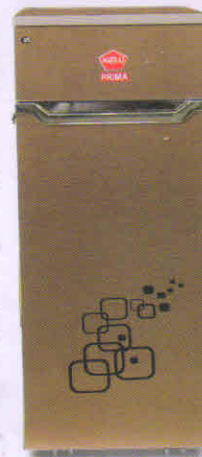

Rapid

- Full Control Panel
- Regular Chamber with M.S. Zinc Cutter
- Membrane Shutter

Tall

- Full Control Panel
- Regular Chamber with M.S. Zinc Cutter
- Prelam Shutter

Prima

- Full Control Panel
- Snap Lock Chamber with Crystal Cutter
- Metallic Laminated Shutter

Galaxy

- Full Control Panel
- Snap Lock Chamber with M.S. Zinc Cutter
- Membrane Shutter

Elegant

- Full Control Panel
- Snap Lock Chamber with M.S. Zinc Cutter
- Acrylic Panel Shutter

Divine

- Full Control Panel
- Snap Lock Chamber with M.S. Zinc Cutter
- Digital Printed Membrane Shutter
- Musical Grinding
- Voice Instruction

Rapid S.S.

- Full Control Panel
- Snap Lock Chamber with S.S. Cutter
- Membrane Shutter

POWERCLEAN for Hygienic & Easy Cleaning

Powerclean Technology

Hopper | Container Capacity - 4.5 kg. | Grinding Capacity - 6.5 to 8.5 kg./hr.

Dimension - 346 x 860 x 484 (WxHxD) | Net Weight - 44 kg. (approx.) | Jali Set - S.S. prefabricated Sheets

Electrical Data : Single Phase, 220|230v, 50 Hz, 1 HP, 0.75 unit/hr.

Natraj Tall:

Hopper | Container Capacity - 5.25 kg. | Grinding Capacity - 6.5 to 8.5 kg./hr. | Dimension - 346 x 905 x 485 (WxHxD) | Net Weight - 45 kg. (approx.)

Why Natraj Aatamaker ?

- 100% fresh flour at very low cost
- Retains all nutrients of grains like Carbohydrates, Proteins, Vitamins, Fibers etc
- No more sour taste of flour like packed flour
- No more hassles of taking grains and bringing back flour from local flour mills
- Easy to Operate | Easy to Maintain | Easy to Clean
- Grinds everything right from wheat - rice to jowar - bajra and even masalas, herbs etc
- Grinds grains to any fineness - right from fine to coarse
- Fully automatic domestic flour mill within your Budget
- First to introduce features like Single Switch Operation,
- Auto Glow, Powerclean Technology etc.

Grinding Capacity (kg./hr.)

Wheat
6.5 to 8.5 kg.

Bajari
4 to 6 kg.

Rava
30 kg.

Udad
25 kg.

Besan
18 kg.

Maize
4 to 6 kg.

Haldi
8 kg.

Daliya
40 kg.

Dhaniya
12 kg.

Coffee
20 kg.

Rice
5 to 7 kg.

Jowar
4 to 6 kg.

Mehandi
8 kg.

Moong
20 kg.

Kali Mirch
12 kg.

Salt
40 kg.

Aavla
12 kg.

Above given grinding capacity is a result of 1hp motor and subject to the type of grains.
